Map 7 - Concord, Lincoln, Wayland - BAY CIRCUIT TRAIL route

(as shown on map 7 dated May 2014)
(text updated May 2014)

The BCT often follows pre-existing local trails; BCT-specific blazing is a work in progress and may be sparse in segments. We encourage you to review and carry corresponding local maps on your BCT walk.

Trail Notices regarding trail problems and closures are posted on the website at www.baycircuit.org under the Explore tab. Please review them for updates to the trail guide and maps.

North to South: trail is marked with white rectangular blazes in Lincoln and BC logos at trailheads in Wayland. Signs indicating BCT to be posted in Walden Reservation.

Bicycle BCT route:

Bicyclists should note that Walden Pond, some Lincoln properties, and all Wayland-owned conservation lands prohibit bicycles. Lincoln trail uses are posted. The BCT therefore has two routes from Rte 2 to Rte 20.

Bicyclists should follow Rte 126 south from Rte 2. Just past Walden Park headquarters, the excellent bike path (paved from Baker Bridge Rd south) begins on the east side of Rte 126. Follow this bike trail south as it roughly parallels Rte 126, sometimes meandering into woodlands or thru fields. Use caution at all road crossings. At jct of Rte 126 and Old Concord Rd, bicyclists may rejoin BCT hikers (see jct C below) or continue south on Rte 126.

Bike route and hiking route diverge again at Rte 117 because bicycles are not allowed on Farrar Pond trails. Bicyclists should use paved bike trail on south side of Rte 117 to proceed east about 1 mile to jct with Rte 126, then turn right to head south on bike route parallel to Rte 126.

Bike route enters Wayland south of Rte 117 jct,

where the Wayland bike route/sidewalk begins. Continue south on this toward the center of Wayland.

Where 126 and 27 merge, continue south a short distance to jct with Rte 20. Right on Rte 20 about 200 yds; left on Pelham Island Rd, which skirts Heard Pond and enters Great Meadows Wildlife Refuge.

See end of Wayland route for directions to next section of BCT.

BCT hikers/skiers route only:

Concord and Lincoln: north to south

Trail exits Hapgood-Wright Town and Bristers Hill, Thoreau Interpretive Path. Left on Walden St. At Rte 2, first cross Walden St and then cross Rte 2 to Rte 126 and Walden Pond State Reservation Reservation (CAUTION: Use great care and obey traffic lights at this multi-lane highway jct. Cross Rte 2 with great caution: this junction has multiple lights, including left turn only lights, and heavy traffic.)

A N42 26.670 W71 20.421

0.0 Jct Rte 2 and Rte 126. Enter **Walden Pond State** Reservation: Look for BCT sign and Amble blazes on right (*note: dogs are prohibited from Walden Reservation*). Follow tr about 300 ft to woods rd. Right on woods rd about 800 ft

0.2 Tr jct. Take right fork a short distance to another fork. Amble ends at Henry David Thoreau's house site a short distance on the right. He lived here for two years, two months, and two days in 1845-47, a stay recorded in his book Walden. BCT goes straight toward Walden Pond, leaving woods rd to follow Pond Path. Ignore side trails to right. Eventually Pond Path parallels active RR tracks.

CAUTION: This is an active MBTA commuter rail line. The commuter trains move at relatively high speeds here from either direction, and winter snows deaden the sound of approaching trains. BCT hikers do not need to cross these tracks. Hikers wishing to explore Adams Woods should use great caution in crossing these tracks at the established trail crossing, or may access Adams Woods from a

point farther along the BCT

- 0.8 At the southern end of the pond the Pond Path turns left. At next trail intersection leave the shoreline, right briefly, then left onto Esker Trail.
